

2big Thunderbolt2 driver for Windows

Posted: December 16, 2014

Thunderbolt-driver-windows-2big.zip (Downloads)

Please follow these installation instructions for **Windows 8**:

1. Click on the link above to download the file.
2. Disconnect the 2big's Thunderbolt cable so that it is not connected to the computer.
3. Extract the file.
4. Windows 8: Press the Windows key + X.
Windows 7: Right-click on **Computer**, then select **Manage**.
5. Select **Device Manager**.
6. Paying close attention to the list of items, connect the 2big's Thunderbolt cable to the computer. Watch for a new item to appear in the list. It will probably appear as *IDE ATA/ATAPI controllers > Standard AHCI 1.0 Serial ATA Controller*.
7. Right-click on the new item and select **Update Driver Software...**
8. Select **Browse my computer for driver software**.
9. Select **Let me pick from a list of device drivers on my computer**.
10. Press the **Have Disk...** button.
11. Browse to the location where you extracted the driver from step 3.
For 64-bit operating systems: Select the **amd64** folder.
For 32-bit operating systems: Select the **i386** folder.
12. Highlight the **mvs91xx.inf** file and select **Open**.
13. Select **OK**.
14. Finish the installation. It may be necessary to reboot your computer.
15. Format the drive according to the instructions found [here](#).
